## NURSING DEPARTMENT

### QUALITY POLICY

Our quality policy is to train nurses who can perform health care practices in line with the mission and vision of the university, faculty and department, in line with the needs of the age adopted by all our stakeholders in education, research and management activities, and in universal standards based on science and ethical principles.

In this direction, our quality policy;

- Based on the university's institutional quality awareness and culture, implementing and continuously improving the quality management system in line with the vision, mission, goals and objectives of the university, faculty and department,
- Carrying out scientific research and project activities at national and international levels,
- A quality and student-oriented approach in education-training,
- Raising professional nurses who protect and improve the health of individuals, families and society, have a developed sense of social responsibility, can effectively use their roles as productive, creative, educators, caregivers, researchers, managers and leaders and have adopted professional ethical values,
- Having a faculty member who constantly updates their individual and academic development, is researcher, questioner, innovative, solution-oriented, has adopted social, scientific and professional ethical values, has effective communication skills and can raise professional members with these characteristics,
- Providing services in line with the changing health needs of the society and expanding lifelong education activities, is based on this principle.
